Mind Your Own Business.

Powerful, yet easy-to-use business software!

- Simplified and flexible payroll process
- Comprehensive reports at your fingertips

Payroll

Integrated payroll and leave management software

Manager Range

Accounting software for any kind of business.

International Award Winner Software.

MYOB products are consistently recognised by our customers and the experts as the best solutions year after year.

As your business or organisation grows, managing your payroll can become very complex, very quickly. Not only do you have to deal with employees expecting their pays on time and error-free, but you also have more employer obligations, a myriad of tax rates, and endless paperwork to contend with.

MYOB Payroll gives you the power to process even the most complex of payrolls, in just minutes.

MYOB Payroll generates all the reports you need to keep management happy, ensures you're paying staff the correct amount as well as keeping up date with all the latest tax requirements, effortlessly.

Powerful and easy to use

MYOB Payroll has been designed with the same easy-to-use elements pioneered by the award winning MYOB Accounting, without compromising on the flexible and powerful features you would expect from a powerful payroll system.

Get Started Fast

The MYOB Payroll setup wizard quickly guides you through the process of setting up your payroll. By answering the plain-English questions, your payroll will be quickly and accurately setup in MYOB Payroll. The Command Centre puts payroll at your fingertips through a series of easy to follow graphic flowcharts. From the Command Centre, you can access any part of the payroll process in MYOB Payroll.

Flexible, comprehensive reports at your fingertips

With access to over 50 flexible reports (for each country), MYOB Payroll provides you the flexibility of selecting records to be printed in each report. You can view payslips, monthly reports on tax, earnings and deductions and also summary reports. You have the option to view reports on screen, send to printer or export them to disk for use in spreadsheets, other databases or email.

Reports you will be able to generate includes:

- Payroll reports – staff payroll ledger, payslips, payroll register, payroll listing and payment advice
- Statutory reports (which includes taxation and other reports to be submitted to the statutory authorities) – monthly remittance report (eg. CP39, Borang A and Borang 8A) and yearly report (eg. CP159 and EA form) printed in the format which conform to the country specific requirement
- Human resource reports – staff details, anniversary listing (showing anniversary of birthdays or service years), leave balance summary, leave transaction summary and staff listing by department
- Office link reports – standard letters in word document which can be customised by user and printed with employee's information using the office link function
- Audit trail report

Simplified and flexible payroll process

MYOB Payroll gives you the flexibility and variety for you to manage multiple payroll frequencies and multiple rates of pay.

MYOB Payroll supports any combination of fortnightly and monthly pay periods with the flexibility of defining formulas for various payroll components.

MYOB Payroll tracks and manages your employee records, earnings and deductions.

It accommodates any combination of incomes, deductions and benefits, which can be set for one time or customised for specific staff. It also handles multiple child relief option.

In addition to year-to-date totals, MYOB Payroll keeps the payslip information for every payslip ever issued through the system.

This is especially useful for audit and reporting purposes.

AutoPay submission, updates and patches

MYOB Payroll AutoPay function enables easy crediting of salary and payment to statutory authorities via generation of a disk file.

This ensures timely and accuracy of payment.

New Features

MYOB Payroll v3 now provides added tax calculation for employees who fall under:

- The Returning Expert Programme (REP) introduced to facilitate the return of Malaysian professionals from overseas.

Plus

- The Iskandar Specified Regions - the new southern development corridor in Johor that has been identified as one of the catalyst developments to spur the growth of the Malaysian economy

New Monthly Tax Deduction (MTD) calculation option

The new options have been added to the **Card File Information window** to help calculate the MTD for employees.
